

Screen 08 – Follow-up Information

Any City High's data is shown below:

Follow-up on 2004-2005 Graduates (February Cycle): Male 271 Female 308 Total 579*

	Male	Female	Total	Black	White	Hispanic	Asian	Indian	Disabled	Coop
4-Year College	186	219	405	42	336	7	20	0	10	2
2-Year College	15	13	28	8	18	0	2	0	5	0
Non-college	12	11	23	0	21	0	0	2	2	0
Military	11	6	17	3	13	0	1	0	20	0
Employment	35	46	81	13	63	2	3	0	30	5
Unknown	3	5	8	2	4	1	1	0	2	0
Other	9	8	17	9	8	0	0	0	6	0
Totals	271	308	579	77	463	10	27	2	75	7

* These totals are from Screen 14 and should include ALL students, including students with disabilities.

- The gender and race columns should include all students, INCLUDING students with disabilities.
- The "Total" column is system calculated and is the sum of male/female, therefore it includes students with disabilities. It should also equal the sum of the race/ethnic categories.
- "Disabled" - Include only graduates who had an IEP when they graduated. The numbers should never be greater than the "Total" column, because the "Disabled" numbers should already be included in the "Total."
- "Coop" - Include only those graduates who had IEPs and who participated in a work experience program coordinated through Vocational Rehabilitation. The numbers should never be greater than the "Disabled" column because "Coop" numbers should already be included in "Disabled."
- "Unknown" – Make every effort to report follow-up on all graduates. The number "Unknown" reported may increase or decrease the district's total employed/continuing education percent as calculated on their Special Education District Profile.

Examples:

- A black male who did not have an IEP would be reported in the Male and Black columns.
- A Hispanic female who had an IEP but did not participate in a work experience program would be reported in the Female, Hispanic and Disabled columns.
- A white male who had an IEP and participated in a VR Coop Work Experience program would be reported in the Male, White, Disabled and Coop columns.

The data shown on this page would indicate that this school building had 579 graduates in the 2004-2005 school year. Of those 579 graduates, 75 had IEPs when they graduated. Of those 75 graduates with IEPs, 7 participated in a VR Coop work experience program.
